

FATHI ZIDAN

Cloud & Backend Engineer

Nazareth, Israel • +972-50-2279800 • fatraze@gmail.com • LinkedIn

PROFESSIONAL SUMMARY

Cloud and backend-focused Computer Science student with two semesters remaining, bringing hands-on experience scaling and automating high-availability infrastructure at Dynamic Yield by Mastercard. Strong proficiency in Python and Bash scripting, Linux environments, and AWS cloud architecture. Passionate about leveraging AI-powered development workflows and intelligent automation to build secure, scalable backend systems. Eager to apply cloud engineering principles to real-world cybersecurity challenges.

EDUCATION

B.Sc. Computer Science | Hebrew University of Jerusalem

Two semesters remaining

- **Relevant Coursework:** Operating Systems, Data Structures & Algorithms, Software Engineering, Machine Learning, Probability & Statistics, Image Processing.

TECHNICAL SKILLS

- **Scripting & Programming:** Python, Bash, C, C++, Java.
- **Cloud & Containers:** AWS (EC2, S3, IAM), Docker, Kubernetes (Basic).
- **OS & Core Fundamentals:** Linux, Windows, Networking.
- **DevOps & Automation:** CI/CD, Grafana, OpenSearch, Jira, Confluence.

PROFESSIONAL EXPERIENCE

Platform Operations Engineer | Dynamic Yield by Mastercard

Sep 2023 – Feb 2025

- Automated operational workflows and log parsing using Python and Bash, significantly reducing manual investigation time and improving incident response in Linux environments.
- Managed and scaled Docker-based microservices deployed across AWS infrastructure, specifically utilizing EC2, S3, and IAM.
- Collaborated cross-functionally with backend and DevOps teams to drive system reliability, automation, and faster recovery (MTTR) for high-availability production systems.
- Maintained infrastructure health and supported real-time decision engines using advanced monitoring tools like Grafana and OpenSearch.

CERTIFICATIONS & TRAINING

AWS Cloud & DevOps Training | Tsafen

Jul 2022 – Dec 2022

- Completed an intensive, hands-on training program focused on AWS cloud infrastructure and DevOps methodologies.
- Gained practical experience in deploying, managing, and troubleshooting modern cloud-based software environments.

VOLUNTEER EXPERIENCE

Python Tutor | Atidim Program

Aug 2022 – Present

- Deliver 1:1 Python mentoring to underprivileged high-school and university students, helping them improve algorithmic thinking, coding structure, and core programming fundamentals.
